

DERMAUTOLOGY SPRAY MULTIFILLER GRAY

Multi-purpose acrylic primer. Adhesion on any metal and plastic surface. Ideal for the repair of rims, bumpers, or sheet metal.

Flexible, with great adhesion and quick drying. It has good coverage power and a fan capable of simulating spray painting. Repainting can be done with both solvent-based and water-based paints. Wet-on-wet technique can be used to avoid sanding.

CLEANING AND DEGREASING

SHAKE FOR 3 MINUTES

APPLY AT A DISTANCE OF 20-30 CM

5 MINUTES DRYING BETWEEN COATS

15 MINUTES DRYING (20°)

NOZZLE CLEANING
