EasyZcheck®

The quickest and easiest check during sanding and paint preparation!

The most efficient and effective product to check for any irregularities while sanding panels or to perform an accurate spray sample colour check. The 'glossy finish' helps detecting any defects or colour deviations.

Art.no. 9300

For an optimal Spray Sample Check:

Paint Preparation

1. Spray Sample Check

Spray on a spray sample to create a glossy finish and check if the colour corresponds.

Sanding

2. Sanding / Panel Check

Spray the panel after the sanding process to check repaired surfaces on irregularities.
